**W 000 INITIAL COMMENTS**

A recertification survey was conducted from April 28, 2009, through April 30, 2009. The survey was initiated using the fundamental survey process. A random sample of three clients was selected from a client population of six males with various disabilities.

The findings of the survey were based on observations at the group home and three day programs, interviews with management and staff, and the review of administrative records, including the facility's incident management system.

WASHINGTON, D.C. 20002

**W 111 483.410(c)(1) CLIENT RECORDS**

The facility must develop and maintain a recordkeeping system that documents the client's health care, active treatment, social information, and protection of the client's rights.

This STANDARD is not met as evidenced by:  
Based on interview and record review, the facility failed to ensure that client records reflected current and accurate information for one of the three clients in the sample. (Clients #1)

The finding includes:

The facility failed to have documented evidence that a informed consent was obtained for the use of sedation for Client #1's medical procedure.

On 4/30/09 at approximately 11:30 PM, interview with the Qualified Mental Retardation Professional (QMRP) and the review of a consultation form dated 4/7/09 located in the nursing section revealed the following:

**W 111**

LABORATORY DIRECTOR'S OR PROVIDER/SUPPLIER REPRESENTATIVE'S SIGNATURE <i>Mamta Tiwari, Deputy Director   D.C. HC</i>	TITLE	(X6) DATE <b>6/5/09</b>
---	-------	----------------------------

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 124 Continued From page 2  
review, the facility failed to ensure the rights of each client and/or their legal guardian to be informed of the client's medical condition, developmental and behavioral status, attendant risks of treatment, and the right to refuse treatment, for one of the three clients included in the sample. (Client #1)

The finding includes:

1. The facility failed to ensure Client #1 and his representative were informed of the risks and benefits of his behavior management treatment plan as evidenced below:

On 4/28/09 at 5:10 PM, Client #1 was observed during the morning medication pass. The Licensed Practical Nurse (LPN) administered the client Carbamazepine 400 mg and Seroquel 100mg as a part of his medication regimen.

Interview with the LPN revealed that Client #1 was prescribed these aforementioned medications to address his behaviors. The LPN further indicated that the medications were ordered by the physician in conjunction with the Behavior Support Plan (BSP) to manage the client's maladaptive behaviors (i.e. elopement, food stealing, ruminations, spitting and eye flipping). The verification of the physician's orders dated 4/1/09 and the BSP dated 8/10/09 supported the interview.

Interview with the Qualified Mental Retardation Professional (QMRP) on 4/29/09 at approximately 2:00 PM, revealed that written inform consent for the use of the psychotropic medications, treatment and the BSP had been obtained from the client's guardian for these matters. The

W 124 Contint ed From page 3

QMRP further stated that the client's guardian functions in a limited capacity to oversee Client #1's health care concerns. According to the QMRP the guardian was appointed on 6/3/08 by the court.

Record review on the 4/29/09 at approximately 2:15 PM, failed to evidence that informed consent was obtained. Further record review revealed the last consent was obtained on 11/13/07. Review of the psychotropic medication reviews and the Human Rights Committee Minutes at 1:00 PM for an 8 month period indicated that medication changes had been recommended and implemented. It should be noted that the review of the medical record on the same day reflected documentation that the guardian was actively participating in the client care as evident by the consent given for the use of sedation for an ENT consultation completed on 2/2/09.

It should be further noted that the review of the psychological assessment on the same date at approximately 2:33 PM, revealed that "Client #1 was unable to make decisions concerning his welfare. He requires others to make decisions..." for his treatment and medical matters.

2. The facility failed to evidence that a consent was given for the use of sedation for Client #1 prior to a dental consultation.

On 4/29/09 at approximately 3:00 PM, interview with the QMRP and the review of Client #1's medical records revealed a note in the dental section dated 11/13/08. Further review of the dental note revealed the following occurred:

"Client #1 was sedated for the appointment.

W 124

1. Individual # 1 and his legal guardian have been informed of the risks and the benefits of his Behavior Support Plan

QMRP received In-Service training on 5/19/09 from Program Manager for the use of psychotropic medication implementation of the BSP and policies regarding consent issues. QMRP will make sure to obtain consent prior to the administration of psychotropic medication or any change of psychotropic medication and BSP's. Consent for BSP's and psychotropic medication will be reviewed quarterly by HRC. QMRP will ensure yearly review and signature by individual # 1 and his legal guardian. The program manager will be monitoring this on routine basis.

05/19/09

See Attachment # 2 A & B

2. The signed consent for the dental appointments of the individual # 1 was obtained from the legal guardian at the time of the procedure but it was not filed in the medical records, Rather it was left in the PMD's office by mistake. The QMRP has been trained by the Program Manager regarding this matter; The QMRP will make sure that all pertinent information regarding individuals is maintained in the medical records.

5/18/09

W 159 483.430(a) QUALIFIED MENTAL RETARDATION PROFESSIONAL

W 159

Each client's active treatment program must be integrated, coordinated and monitored by a qualified mental retardation professional.

This STANDARD is not met as evidenced by: Based on observations, interviews with the Qualified Mental Retardation Professional (QMRP) and record review, the QMRP failed to ensure integration, coordination and monitoring of client's active treatment regimen for three of the three client in the sample.

The findings include:

1. The QMRP failed to ensure Client #2 transitioned to a new group home that met his needs in accordance with a legal agreement.

On 4/28/09 at approximately 11:06 AM, interview with the QMRP and review of the Human Rights Committee minutes dated 11/20/08 evidence the following

"The Client has a court order to move to Eastern Avenue so that he may have a private room."

Further interview with the QMRP revealed that the statement was true and the court has ordered the client to move to the new facility. However, the QMRP further mentioned that at the time the move was scheduled to occur in January 2009.

--------------------	--	---------------	---	----------------------

W 159 Continued From page 6  
the move was cancelled by Department of Disability Services (DDS) case manager assigned to the client at that time. Reportedly, the QMRP mention to the surveyor that the client's personal clothing remains packed awaiting his move. The QMRP further commented that the vacant slot the client was to fill at the Eastern Avenue facility was no longer available. The QMRP was not able to provide any documented information as to how and why the Eastern Avenue group home was selected for the "court ordered" move.

W 159

On the same day at approximately 3:24 PM, interview with the agency CEO, revealed that the move was not court order, however was a part of a personal settlement agreement in response to a legal matter. The CEO further commented that two items on the settlement agreement that would directly affect the client were as follows:

W 159 (a)

- a. The client was to go on a vacation.
- b. The client was to move to a facility in which he would be provided a private room.

According to the CEO, it could not be determine as to why the Eastern Avenue facility was chosen. The CEO further commented that Eastern Avenue group home may not be appropriate for Client #2

Record review on the same day at 3:00 PM failed to evidence a court order and/or a personal settlement agreement for Client #2 to be moved to a new group home. Additionally, there was no evidence of any transition meeting minutes facilitated by the QMRP and DDS case manager. It should be further noted that there was no documented evidence that a dinner, overnight or

Locations are being explored for Individual # 2's Personal vacation. Final arrangements will be made after Individual #2's annual vacation in July 2009.

W 159 (1b)

In order to enhance the quality of life of Client#2 (and also as a part of legal settlement) DCHC offered to provide Client#2 with his own bedroom. This continues to be DCHC's intention. But DCHC wants to make sure that Client#2 moves to the place that best fits his personal needs. DCHC is in the process of developing a new facility which will provide Client#2 with his own bedroom in a barrier free access friendly home. DCHC hopes that the facility will be operational by December 2009.

5/7/09

Please see the minutes of the transition meeting held on 1/12/09 and 5/7/09

sample (Clients #2 and #3)

The findings include:

1. The facility failed to ensure that Client #2 was provided continuous active treatment in accordance with his individual support plan as evidenced below:

On 4/30/09 at approximately 9:40 AM, interview with the QMRP and the review of Client #2's Individual Program Plan (IPP) revealed several objectives. Further review of the IPP and the corresponding data sheets reflected the following:

a. Client #2 will improve his Home Management skills - "[The client] will safely exit the facility during a fire drill." The frequency in which this objective was to be implemented was twice monthly. Further review of the program data sheet revealed that this program had not been implemented for the month of April 2009.

b. Client #2 will improve his Cognitive skills - "[The client] will be allowed to make a simple purchase under a \$1.00 twice a month with 100 % independence." Further review of the IPP and the corresponding data sheet revealed that this program had not implemented for the month of April 2009.

2. The facility failed to ensure that Client #3 was provided continuous active treatment in accordance with his individual support plan as evidenced below:

On 4/30/09 at approximately 9:40 AM, interview with the QMRP and the review of Client #3's Individual Program Plan (IPP) revealed several

him to hand over the cookies. Client #1 was observed to begin to get agitated and instead of the staff creating a struggle in this situation, they backed off from their attempts. The staff were unsuccessful in their efforts to get the cookies from Client #1.

Interview with the staff on the same day at approximately 5:59 PM revealed that Client #1 had a behavior of stealing food and had a BSP which address the behavior. Review of the BSP on 4/29/09 at 1:30 PM, revealed proactive strategies were to be implemented as follows:

- a. Monitor [the client's] whereabouts at all times to prevent food stealing.
- b. Do not leave food out on the counter following meals.
- c. Document all incidents in the behavior management section of the IPP book.

The direct care staff failed to continuously monitor Client #1's movements. Additionally, staff after the client's had their afternoon snack, failed to put away the remaining package of cookies left on the kitchen counter.

Review of the data collection section of the BSP for food stealing evidence that the staff also failed to document Client #1's episode of food stealing in the program book.

- 3. The facility direct care staff failed to implement Client #2 IPP program objectives as written. [See W249]
- 4. The facility direct care staff failed to implement

**W 255** Continued From page 14 reported. According to the QMRP the staff assigned to Client #3 was transferred to this facility several months ago. The QMRP noted on several occasions that the staff in question was not correctly recording the data for the communication program. The QMRP ensured the surveyor that the staff was in need of training on accurate documentation for this communication program for Client #3.

**W 255**

The Speech Language Program objective for individual # 3 was to locate the month and mark the day/date on the calendar. Since individual # 3 was following the objective for 2 years consecutively and was able to perform with verbal reminder. Therefore at the IPP review meeting it was discussed and the team agreed upon making changes for this objective. Since the Speech Therapist resigned the objective was not implemented. The current Speech Therapist prepared the new objective as of 05/20/09 . The staff was trained on 05/20/09 to implement and document the objectives. The House Manager and QMRP will monitor the books on a daily basis. The Program Manager will oversee as needed. The program will be monitored by the Speech Therapist on a quarterly basis.

**6-1-09**

Review of the Speech noted on the same day at 11:30 AM, revealed that the last speech consult entry was dated January 9, 2009. At the time of the survey, there was no evidence that the Speech Pathologist had assessed the communication objective and revised the program objective as recommended by the facility's QMRP.

**W 368** Continued From page 17  
The findings include:  
The facility failed to ensure each client's medication regimen was administered according to the physician's orders as evidenced below:

1. Interview with the nurse and the review of the Medication Administration Records (MAR) on 4/30/09 at 1:00 PM, revealed that Client #1's Actonel 35 mg tablet was not administered on Saturday, April 23, 2009. According to the nurse, the medications are received a few weeks prior to the month's end. Review of the medication bubble packaging on the same day at 12:40 PM, revealed the last slot was observed to contain the Actonel pill and had not been administered as prescribed. It should be further noted that this weekly dosage of medication was prescribed for Client #1's diagnosis of Osteoporosis.
2. Interview QMRP and record review of the staff treatment MAR on 4/30/09 at approximately 1:00 PM, failed to evidence that staff administered Client #3's Mycocide NS antifungal Solution. The MAR did not have a signature signifying administration for this medication on 4/28/09 in the AM. This topical medication was to be applied to his great toe twice daily.

**W 381** 483.460( ) (1) DRUG STORAGE AND RECORDKEEPING

**W 368**  
**1.**  
It should be noted that even though DCHC medication cycle begins from 8<sup>th</sup> of each month (that means medication arrives from pharmacy 3-4 days prior to start date) these are certain medication don't come routine cycle and requires order placement call prior to last dose. For example all liquid medication, eye and ear drops, nasal sprays, birth control pills, Tums, inhalers, topical patches, suppositories and Actonel etc. For month of April the new card was started on 04/11/09. Each Actonel card has 4 tabs.  
1<sup>st</sup> pill given on - 4/11/09  
2<sup>nd</sup> pill given on - 4/18/09  
3<sup>rd</sup> pill given on - 4/25/09 (which was not signed error on nurses part though training was done on 5/01/09)  
4<sup>th</sup> pill was on - 5/01/09 (still on card)  
Also it should be noted that 4/23 was a Thursday not Saturday. On weekly round RN will check MAR and medicines to avoid further error.

**2.**  
An in-service training was done on 5/25/09 to instruct staff on how to read the directions for application, check expiration date, get the refills and also documentation on treatment administration record. QMRP and HM will continue to monitor IPP and Treatment book to ensure proper documentation.

1422: 3521.3 HABILITATION AND TRAINING  
Each GHMRP shall provide habilitation, training and assistance to residents in accordance with the resident's Individual Habilitation Plan.  
This Statute is not met as evidenced by:  
Based on staff interview and record review the facility failed to ensure that residents receive interventions as specified in their Individual Program Plans for two of the three resident's in the sample. (Resident #2 and #3)

1422

The findings include:  
1. The facility failed to ensure that Resident #2 was provided continuous active treatment in accordance with his individual support plan as evidenced below:  
On 4/30/09 at approximately 9:40 AM, interview with the QMRP and the review of Resident #2's Individual Program Plan (IPP) revealed several objectives. Further review of the IPP and the corresponding data sheets reflected the following:  
a. Resident #2 will improve his Home Management skills - "[The client] will safely exit the facility during a fire drill." The frequency in which this objective was to be implemented was twice monthly. Further review of the program data sheet revealed that this program had not been implemented for the month of April 2009.

b. Resident #2 will improve his Cognitive skills - [The resident] will be allowed to make a simple purchase under a \$1.00 twice a month with 100 % independence." Further review of the IPP and the corresponding data sheet revealed that this program had not implemented for the month of April 2009.

2. The facility failed to ensure that resident #3 was provided continuous active treatment in accordance with his individual support plan as evidenced below:

On 4/30/09 at approximately 9:40 AM, interview with the QMRP and the review of resident #3's Individual Program Plan (IPP) revealed several objectives. Further review of the IPP and the corresponding data sheets reflected the following:

a. Resident #3 will improve his Home Management skills - "[The client] will safely exit the facility during a fire drill." The frequency in which this objective was to be implemented was twice monthly. Further review of the IPP and the corresponding program data sheet revealed that this program had not been implemented for the month of February and March 2009.

b. Resident #3 will improve his Socialization skills - "[The resident] will make a telephone call to his family member on Sunday at 2:00 PM with 25 % reminder and with staff supervision." The frequency in which this objective was to be implemented was four times a month. Further review of the IPP and the corresponding program data sheet revealed that this program had only been implemented once on 3/39/09 for the month of March.

2.  
92b

In service training was completed on 05/28/09 by the QMRP and the House manager to ensure that Individual #3 and all other residing individuals receive intervention as specified in the Individual Program Plan. Also an IPP warning ticket form was established (please see attached form) to be issued to staff IPP documentation is not done. House manager will check IPP books every day to make sure documentation is done properly. QMRP will also check IPP books on a weekly basis or earlier as needed.

I 427	Continued From page 5  I 427 3521.5(d) HABILITATION AND TRAINING  Each GHMRP shall make modifications to the resident ' s program at least every six (6) months or when the client:  (d) Is being considered for training toward a new objective or objectives; or...  This Statute is not met as evidenced by: Based on staff interview and record review, the GHMRP's Qualified Mental Retardation Professional (QMRP) failed to revise residents' program objective for one of three residents in the sample. [Resident #3]  The finding includes:  On April 30, 2009 at approximately 10:55 AM, interview with the QMRP and review of Resident #3 individual program plan revealed a speech language program. Further review of the communication program revealed a objective to " [The resident] will be able to locate month and mark date/day on the calendar." Further interview with the QMRP revealed that the resident is able to complete the task independently and has done so over the past 6 month. The QMRP presented the calendars as evidence that Resident #3 had the ability to independently participated in this program. According to the QMRP, she contacted the therapist with her concerns in the beginning of the 2009. Reportedly, the therapist she mentioned is no longer providing communication related services to the agency. However, the QMRP stated that the supervising Speech Pathologist has not follow up to ensure that the communication objective was revised and the	I 427  I 427	The Speech Language Program objective for individual # 3 was to locate the month and mark the day/date on the calendar. Since individual # 3 was following the objective for 2 years consecutively and was able to perform with verbal reminder. Therefore at the IPP review meeting it was discussed and the team agreed upon making changes for this objective. Since the Speech Therapist resigned the objective was not implemented. The current Speech Therapist prepared the new objective as of 05/20/09 . The staff was trained on05/20/09 to implement and document the objectives. The House Manager and QMRP will monitor the books on a daily basis. The Program Manager will oversee as needed. The program will be monitored by the Speech Therapist on a quarterly basis. 1474 Continued From page 7

Saturday, April 23, 2009. According to the nurse the medication are received a few weeks prior to the month's end. Review of the medication bubble packaging on the same day at 12:40 PM, revealed the last slot was observed to contain the Actonel pill and had not been administered as prescribed. It should be further noted that this weekly dosage of medication was prescribed for Resident #1's diagnosis of Osteoporosis.

2. Interview QMRP and record review of the staff treatment MAR on 4/30/09 at approximately 1:00 PM failed to evidence that staff administered Resident #3's Mycocide NS antifungal Solution. The MAR did not have a signature signifying administration for this medication on 4/28/09 in the AM. This topical medication was to be applied to his great toe twice daily.

1474

1.

It should be noted that even though D.C.H.C medication cycle begins from 8<sup>th</sup> of each month (that means medication arrive from pharmacy 3-4 days prior to start date) these are certain medication don't come routine cycle and requires order placement call prior to last dose. For example All liquid medication eye & ears drops, nasal sprays, Birth control pills, Turns, inhalers, Topical patches, suppositories and Actonel etc.

For month of April the new card was started on 04/11/09. Each Actonel card has 4 tabs

1<sup>st</sup> Pill was given on -04/11/09

2<sup>nd</sup> Pill was given on - 04/18/09

3<sup>rd</sup> Pill was given on - 04/25/09

(which was not signed error on nurses part though training was done on 05/01/09)

4<sup>th</sup> Pill was on - 05/01/09

(which was still on card)

Also it should be noted that 4/23<sup>rd</sup> was a Thursday not Saturday. On weekly round R.N will check M.A.R and medicines to avoid future error.

5/2/09

2.

An in-service training was done on 5/25/09 to instruct staff on how to read the directions for application, check expiration date, get the refills and also documentation on treatment administration record. QMRP and HM will continue to monitor IPP and Treatment book to ensure proper documentation.

5/25/09
