Scrolling and Navigation

A navigation icon appears in the phone display to indicate that you can scroll to more options or information.

On the 9620—Use the up and down navigation arrows to scroll through lists and select a line.

On other 9600 series phones—Use the line buttons or the navigation arrows to select a line.

When you scroll to a line on the display, that line is highlighted in black with white letters. Softkey labels will change according to the options available for the highlighted line. The OK button is a shortcut for the default action.

When you select an entry in your Contacts list, press OK to place a call.

Use the right and left navigation arrows to go to other screens when the paging icon (left- and right-facing arrows) displays on the Title Line or to move the cursor right or left when entering text.

Avaya Menu

Use the Avaya Menu to adjust and customize options and settings for your telephone, access additional Web-based applications, get information about your phone and network settings, and log out.

Answering and Making a Call

Answering a Call

Answer an incoming call in one of the following ways:

- If you are not on another call, lift the handset, or press the line button next to the incoming call, or press Speaker to answer using the speakerphone, or press Headset to answer using the headset.

- If you are on another call and the telephone does not automatically display the incoming call, from the Phone screen scroll to the line with the incoming call and press Answer or OK. If you are on another call and the telephone does automatically display the incoming call, you can press Ans Hold to automatically put the first call on Hold when you answer the new call. Alternately, you can press Ans Drop to automatically drop the first call when you answer the new call.

Making a Call

1. Lift the handset, or press Speaker or Headset (if applicable) or a line button for an available line.
2. Dial the number you want to call.

Using Voice Dialing

1. Press Contacts.
2. If Voice dialing is enabled, a Voice softkey displays. If no tone is generated or if no check mark appears next to the Voice softkey, press Voice.
3. Within a few seconds or as soon as you hear the tone, say the name of the person you want to call.

Making a Call Using Edit Dialing

Edit dialing works just like making a call on your cell phone - just start entering the number without hearing a dial tone. Using the Bksp softkey, you can backspace to "edit" the number before actually dialing it.

Putting a Call on Hold

1. Press Phone to view the main Phone screen, if necessary.
2. If you are not active on the line you want to put on hold, select that line.

3. Press Hold.
4. Press Resume or the line button of the held call to retrieve the call.

Transferring a Call

1. From the Phone screen, select the line you want to transfer.
2. Press Transfer or OK.
3. Dial the telephone number, or call the person from the Contacts list, or call the person from the Call Log list.
4. If unattended transfers have been administered, you can hang up now if you do not want to announce the call. Otherwise, press Complete or OK to transfer the call.

Conference Calls

Setting up a Conference Call

1. From the Phone screen, select your active call.
2. Press Conf.
3. Dial the telephone number, or call the person from the Contacts list, or call the person from the Call Log list.
4. When the person answers, press Join or OK to add the person to the existing call.
5. Press Add and repeat these steps to add another person to the conference call.
6. Press Drop at any time to drop the last person added to the conference call.

Adding a Person on Hold to a Conference call

1. From the Phone screen, select your active call.
2. Press Conf, or Add if you are already in a conference.
3. Select the call on hold that you want to add to the conference.
4. Press Resume to take the call off hold.
5. Press Join to add the person to the conference call.
