NOTES: Release dates for January-February data do not follow the usual monthly schedule due to longer processing time required for annual benchmarking and the need to spread out LAUS releases. In other months, the dates may vary from the norm due to federal holidays or conflicts with other BLS releases. All nonstandard days of the week are noted. (*) Release dates were changed due to the federal government shutdown. The September 2013 Regional and State Employment and Unemployment news release and the September 2013 Metropolitan Area Employment and Unemployment news release, which would have disseminated preliminary September data, will not be published. Instead, final September data for both news releases will be published at the time of the publication of the October news release data scheduled on November 22, 2013 (Regional and State Employment and Unemployment) and December 5, 2013 (Metropolitan Area Employment and Unemployment).
