

**Residents, visitors and business owners,
let's work together
to reduce rodent activity in our city!**

Rodent Control Tips for Business Owners

- Properly store solid waste in containers
- Store grease in a metal container with a tight fitting lid for disposal or recycling
- Provide a sufficient number of food waste containers with tight-fitting lids
- Maintain the perimeter of the dumpster free of debris
- Refrigerate garbage or place it in a rodent proof (no openings) indoor or outdoor storage facility, until garbage pickup
- Community businesses, including food establishments, should utilize trash compactors to mitigate rodent activity
