BOARD OF NURSING MEETING

OPEN SESSION

CALL TO ORDER:

The BON meeting open session was called to order by Cathy Borriss-Hale, Chairperson at 9:45 am

NURSING EDUCATION/PRACTICE COMMITTEE REPORT:

DC Nursing Leaders Symposium

ISSUE: Re-cap (See evaluation summary attached)

REGULATION COMMITTEE REPORT: [See update below]

- Side by side APRN regulations review (see attached)
- APRN Roundtable to be scheduled to receive feedback
- NAP side-by-side and RN-LPN-APRN side-by-side to be reviewed

NURSING ASSISTIVE PERSONNEL:

HOME HEALTH AIDES: Karen Skinner

ISSUE: Charge from the Discipline Committee to the Full Board. Consider making the issue of schools admitting students with positive criminal backgrounds in HHA programs a front burner issue. Often times the schools in DC are receiving grants/funds from DOES for these students. However, they are being denied by the Board due to positive CBC's.

DECISION: **No change in policy (June 3, 2015)**

FOLLOW-UP RECOMMENDATION:

Require schools to inform students about CBC requirements prior to admittance to the program. Require schools to have students sign a document acknowledging receipt of notification.

Statement provided by the Board.

MOTION: **Approved by consensus**

PRACTICE ISSUE

ISSUE: Question received from a BON

A school nurse has been asked to deliver marijuana cookies prepared by the student's mother to a minor student who is autistic and has severe seizure disorder. While the nurse is not the designated caregiver under the statute or physician order so this may not be an issue for her it raises questions on how do the BONs in states with medical marijuana statutes address the issue of nurses being asked to administer or deliver the medicinal marijuana to clients. We see this increasing in schools and in home care with

hospice. Do your laws or regulations allow nurses to do this? Are their clauses in the regulations or statutes that allow nurses to refuse to administer marijuana if they are uncomfortable? How do you handle the fact that Marijuana is a Class 1 narcotic?

DISCUSSION: Refer to practice

REGULATORY ISSUE

NCSBN SHARK TANK: Karen Skinner

ISSUE: NCSBN's Regulatory Staff are on a nationwide search to discover regulatory innovators, researchers, authors, and developers of new ideas/initiatives/processes for boards of nursing/NCSBN/nursing regulation. These individuals are invited to apply to be a part of NCSBN's Regulatory Shark Tank at the Annual Meeting. Individuals chosen will have the unique opportunity to vet their ideas by a panel of experts ("the sharks") who will provide feedback, guidance and encourage discussion and input from the audience of regulators. Individuals chosen will each have a 20 minute segment during the regulatory session at the Annual Meeting to showcase their board of nursing, their idea/product, etc and interact with the sharks. The session promises to be thought provoking, entertaining, informative and hopefully, will kickoff new ideas and projects for nursing regulators and NCSBN. Whether your board of nursing or staff have a great idea, new product or process, subject of importance, research project or journal idea we invite you to fill out an application. Our casting agents will then select 7 ideas/projects/topics for the session and contact the applicant with further details. (They will be looking for a diversity of topics and ideas.) Who knows? This may be the beginning of an award winning research project, a JNR article or other idea that may be helpful to nurse regulators around the world!

RECOMMENDATION: NAP Regulatory Model

NURSING EDUCATION PROGRAM REGULATIONS:

ISSUE: Proposed regulations returned from EOM for further revision. Staff will review recommended revisions.

DECISION: Incorporate the following revision in compliance with APRN Consensus Model.

- | **5611.7** Faculty supervising preceptor guided clinical experiences-in **pre-licensure** nursing programs shall meet the qualifications stated in §§ **5608.8 and 5608.10** of this chapter.

- 5611.8** On-site supervision of preceptors used in clinical experiences with pre-licensure students shall occur a minimum of two (2) times within a semester.

5611.9 Registered nurse students completing clinical experiences in the District of Columbia for advanced practice registered nursing programs must possess an active unencumbered license in the District of Columbia.

MOTION: Consensus

LPN/RN REGULATIONS

ISSUE: Compact Licensure:

RECOMMENDATION: In lieu of compact licensure, consider the following language

5508 LICENSURE BY ENDORSEMENT

5508.1 An applicant is eligible for licensure by endorsement if the applicant provides evidence of:

(a) Completion of a Member Board approved RN or PN prelicensure education program;

(b) Successful passage of the NCLEX/State Board Test Pool Exam

Comment: Correct language above to reflect international applicants

5508.2 To apply for a license by endorsement, an applicant shall:

(a) **Submit a completed application indicating multistate licensure status; or**

(b) Submit a completed application to the Board providing the following:

a. Verification from the original state or territory of licensure pursuant to §5507.1

b. Verification from a state or territory of licensure in good standing;

c. Evidence of a completed CBC

(d) Any other requirements as set forth by the Board;

“Multistate license” means a license to practice as a registered or a licensed practical/vocational nurse (LPN/VN) issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege
