OS-14-030 ALL	<p><b><u>PRESENTATIONS:</u></b></p> <p><b><u>COLLABORATIVE PRACTICE</u></b> Patricia D’Antonio, the Executive Director of the D.C. Board of Pharmacy (BOP), will be providing updates based on the BOP’s recent discussions pertaining to collaborative practice during its July 2014 meeting.</p>	

Government of the District of Columbia  
Department of Health

Ms. D'Antonio was unavailable, therefore James Applebey, Rph, MPH, Vice Chair of the Board of Pharmacy and taskforce member presented in her place. He informed the Board that at their last meeting the committee identified several areas of concern that need clarification. He is seeking the Board's input and clarification today, so that he can bring the responses to his full Board (BOP) when they meet again on 7/31/14 (tomorrow).

The first issue was regarding whether the agreements should have a formal signature from the pharmacist, the patient, and the physician? Or just the patient/physician or patient/pharmacist? The Board answered that for patient safety and to also ensure that they do have a primary physician, they prefer that there be all three signatures.

The second issue was regarding what to do if a patient does not have a primary care provider? The Board felt they would need to get one, and explained their concern that this program was not designed to have pharmacists become people's primary care providers.

The Board attorney informed Mr. Applebey that the Board had not yet reviewed the draft regulations provided. Mr. Applebey expressed concern, as he was under the impression that the Board of Medicine would have done so by now, and provided input back to the Board of Pharmacy for their 7/31 meeting. The Board informed him that that was not explained to them, and assured him they would review the draft as a full board and get back to them after BOM's next meeting.

The Open Session Minutes continue on the next page with the Open Consent Items.
