500  General Provisions and Enforcement
501  Exempted Pharmaceutical Products
502  Disposal of Unused Pharmaceutical Products
503  Recordkeeping
599  Definitions

500  GENERAL PROVISIONS AND ENFORCEMENT

500.1 Effective January 1, 2011, a health care facility shall not dispose of any pharmaceutical product, used or unused, by flushing the product down a drain or by any other method that utilizes the public sewer system, except as authorized by this chapter.

500.2 Effective July 1, 2013, unless authorized by this chapter, a health care facility that is determined to have disposed of a pharmaceutical product by flushing the product down a drain or by any other method that utilizes the public sewer system, shall be:

(a) Subject to a civil fine of up to one thousand dollars ($1,000) per occurrence; and

(b) Required to submit to the Board of Pharmacy, or its designee, a mitigation plan designed to prevent further such occurrences within thirty (30) days of receipt of a request for the mitigation plan.

500.3 The Director of the Department of Health (Director), or his or her agent, shall have the right to enter upon and into the premises of any health care facility:

(a) At reasonable times;

(b) After presenting proper identification; and

500.4 An inspection or investigation conducted pursuant to this chapter and the Act may include, but shall not be limited to:

(a) Review of policies and procedures manuals;
(b) Inspection of all locations within the health care facility where pharmaceuticals and pharmaceutical waste are stored; and

(c) Review of all records, receipts, and other documentation pertaining to the health care facility’s pharmaceutical waste disposal.

500.5 Chapters 20 (Hospitals) and 32 (Nursing Facilities) of this subtitle shall supplement this chapter.

501 EXEMPTED PHARMACEUTICAL PRODUCTS

501.1 When absent of any additional additives, the following pharmaceutical products may be disposed of by flushing the product down the drain or by another method that uses the sewer system:

(a) Sterile Water;

(b) Dextrose solutions such as five percent (5%) dextrose in water (D5W);

(c) Saline solutions such as nine tenths of a percent of sodium chloride (0.9% NaCl);

(d) Lactated Ringers;

(e) Potassium salts such as potassium chloride (KCl);

(f) Calcium salts such as calcium chloride (CaCl) and Calcium Gluconate; and

(g) Magnesium salts such as magnesium sulfate (MgSo4).

502 DISPOSAL OF UNUSED PHARMACEUTICAL PRODUCTS

502.1 Pharmaceutical products may be disposed of through:

(a) A waste to energy program;

(b) A pharmaceutical waste container with appropriate procedures for disposal; or

(c) Recommended procedures as published by the FDA and DEA.

502.2 Those pharmaceutical products which are defined as controlled substances under federal or District law shall be managed in accordance with federal and District
laws and regulations.

502.3 Those pharmaceutical products which are defined as hazardous waste under federal or District law shall be managed in accordance with federal and District laws and regulations.

502.4 All antineoplastic and cytotoxic drugs shall be treated as hazardous waste and managed and disposed of in accordance with the applicable federal and District laws and regulations.

502.5 A health care facility may choose to manage its pharmaceutical waste at a more stringent or higher level of waste management than that required under applicable District or federal laws and regulations.

502.6 All pharmaceutical waste shall be separated from active pharmaceutical stock and clearly labeled as “pharmaceutical waste.”

502.7 Pharmaceutical waste shall not be combined with other forms of waste unless the pharmaceutical waste is first denatured as recommended by both the FDA and DEA.

503 RECORDKEEPING

503.1 The recordkeeping requirements of this section shall apply to all health care facilities, unless otherwise exempted by this chapter or the Director.

503.2 A healthcare facility shall maintain a complete and accurate record of its pharmaceutical waste disposal, for a period of three (3) years from the date of disposal.

503.3 A healthcare facility shall develop and maintain written policies and procedures for the management of its pharmaceutical waste.

(a) These policies and procedures shall include, at a minimum, the following:

(1) Documentation that the program has been reviewed and updated as needed not less than every two (2) years;

(2) The position title(s) of the person(s) within the facility responsible for program implementation; and

(3) Policies and procedures designed to educate facility staff and volunteers, as part of an orientation process and continuing on an annual basis thereafter, regarding proper pharmaceutical waste disposal; and
(b) These policies and procedures may also include processes designed to minimize the creation of pharmaceutical waste, such as implementation of a pharmaceutical waste minimization program.

599 DEFINITIONS

599.1 As used in this chapter the following terms shall have the meanings ascribed:

Board - District of Columbia Board of Pharmacy

Department - Department of Health

Director - Director of the Department

Hazardous pharmaceutical waste - a pharmaceutical product that is defined as hazardous waste under federal or District law.

Health care facility – a hospital, assisted living facility, nursing home, or institutional pharmacy.

Institutional pharmacy – that physical portion of a health care facility where drugs, devices, and other materials used in the diagnosis or treatment of injury, illness, and disease are dispensed, compounded, or distributed and pharmaceutical care is provided.

Pharmaceutical product – a drug or biologic for human use regulated by the federal Food and Drug Administration.

Pharmaceutical waste - a pharmaceutical product that is no longer suitable for its intended purpose or is otherwise being discarded, but does not include pharmaceuticals excreted from the body during normal physiological functions and medical procedures.

Pharmaceutical waste minimization program - a program used to identify pharmaceuticals that need to be discarded, to decrease pharmaceutical waste, and to implement more environmentally sustainable practices regarding pharmaceutical waste disposal.
